

MEMBER TESTIMONIALS

You have a decision to make, and we want to make that decision an easy one. We are confident that once you try the Gold Program, you will quickly see the benefits it provides your fleet. But hey, don't take it from us...just look at what our current Gold Members are saying...

COMPETITIVE EDGE

"The Gold Program really gives us a competitive edge. We are saving a substantial amount more per tire with the Gold Program from what we were paying before. All I ask is that you don't tell my competitors about this great program."

Ron Lallo - President
Gazelle Transportation, Inc.

OVER-THE-ROAD CONFIDENCE

"I finally have confidence buying tires over-the-road, and I know that I won't be taken advantage of. The Gold Program has opened new doors for us by providing us with a network of dealers. Anywhere our trucks go, I know there is dealer close by who will handle our account quickly."

Billy Bowyer - Director of Maintenance
M&M Cartage

HELPING SMALL FLEETS

"In the past, we bought a mix of 2nd and 3rd tier tire brands due to the cost of a premium tire for a smaller fleet like ourselves. With the competitive pricing available to us through the Gold Program, now we are sticking with Goodyear. And with the Goodyear DuraSeal technology, our trucks are going in and out of the landfills experiencing fewer flats, which means less downtime and all the cost associated with that."

Doug Enke - President
Town & Country Sanitation

PURCHASE CONTROL

"We switched to the Goodyear tire back in May of 2005 when we found out about the TruckersB2B Gold Program. We can better budget from year to year since we now have our own set national account pricing for the year, and we still get to work with our local dealer for delivery and service. Even our drivers are happier - they have noticed fewer problems over-the-road because now we can buy a premium tire."

Jason Burditt - President
Burditt Trucking
